

PROMPTING TECHNIQUES

© Laurent Jollet - www.extrateacher.com

ROLE – TASK – FORMAT

Simple and precise for everyday tasks

You are a student like me. Help me revise for my English test about the USA. Create a revision sheet with the most important information.

✦ ✦ PROMPT

ROLE – TASK – FORMAT – CONTEXT

Simple but more precise than RTF

You are a student like me. Help me revise for my English test about the USA. Create a revision sheet with the most important information. I am a French 9th-grade student and my English level is B1.

✦ ✦ PROMPT

PROMPT – ROLE – EXAMPLES – PARAMETERS

Simple technique for daily use

I want to revise for my English test about the USA. You are a student like me. Include vocabulary such as flag, capital, state, president and landmark. I am in 9th grade and my English level is B1. Use simple English and make the revision sheet short.

✦ ✦ PROMPT

CONTEXT – ROLE – ACTION – FORMAT – TONE

Good method for professional results

I am a French 9th-grade student preparing for an English test about the USA. My level is B1. You are a student like me who is good at English. Help me revise American geography, symbols and famous places. Create a short revision sheet followed by 10 questions. Put the answers at the end. Friendly and easy to understand.

✦ ✦ PROMPT

CONTEXT – ROLE – EXAMPLES – ADJUSTMENTS – TONE – EXTRAS

Powerful framework for professional results

I am a French 9th-grade student preparing for an English test about the USA. My level is B1. I have 15 minutes to revise. You are a student like me who is good at English. Include vocabulary such as flag, state, capital, president and landmark. Use examples about New York, Washington D.C. and California. Help me revise American geography, symbols and famous places. Friendly, clear and motivating. Use simple English. Check that the activity is suitable for a B1 student and that the answers are correct. Put the answers at the end.

✦ ✦ PROMPT

When using AI, always protect your privacy by keeping personal details –like your real name, address, and passwords – out of your prompts.

Writing clear AI prompts reduces your energy footprint because the computer uses less power to give you the right answer on the first try.
